CARE OF YOUR MOUNTCASTLE HAT

Your Mountcastle hat is a quality item and with proper care during its life you can maintain its appearance and durability. The felt & poly braid hats are not inexpensive, disposable hats that can be treated roughly or continuously crushed into your school bag.

CARE INSTRUCTIONS FOR FUR & WOOL FELT HATS

- **DO NOT DRY CLEAN.**
- Always brush your hat anti-clockwise.
- When your hat is not being worn, do not rest the hat on the brim, stand it on the crown.
- Should your hat become wet, allow it to dry naturally and do not put your hat away when it is moist with perspiration or wet.
- Do not allow your hat to dry in the direct sunlight (not in the car).
- If after brushing, a soiled spot remains, slightly dampen a clean cloth with cleaning fluid or thinners and rub lightly.
- **The hat can be treated with a silicon waterproofing spray.**

CARE INSTRUCTIONS FOR POLY PROPYLENE HATS

- Sponge gently with cold water & use a mild soap (Lux or Sunlight – no abrasive chemical products) to remove spots.
- Scrub soiled area with a small soft brush.
- Rinse in cold water & shake dry.
- **DO NOT MACHINE WASH, TUMBLE DRY OR PLACE IN DISHWASHER.**
