

Toddle – View Notifications on the Web

Click on the bell icon on the top right corner of your homepage to view the notifications you have received as a family member.

Note: Notifications for all your children are consolidated under this tab.

The notifications panel is segregated into two tabs:

- **Primary**- For notifications related to task evaluation, unit sharing, and more.
- **Announcements**- For notifications specific to announcements.

Unread notifications are indicated by numbered badges and red dots. Each notification includes an icon showing its source (e.g., Unit plan) and a brief description of the activity, along with the time it was received. You can click on any notification to be taken to the relevant section of the platform where it was triggered.

Additionally, use the following features to help you navigate notifications efficiently:

- **Mark all as read icon:** Mark all notifications as read.
- **Show only unread icon:** Filter out the notifications that are unread, helping you manage large volumes efficiently.
- **Gear icon:** Customise notification preferences.
